最新功能- Reading Assistance AI閱讀助理

- 幫助臨床醫生、圖書館員和學習者快速找到書籍章節和期刊文章中最關鍵的見解，透過摘要書籍章節與期刊文章，並在閱讀過程中直接回答問題。
- Reading Assistant使用範圍：ClinicalKey資料庫收錄的Books和Journals全文內容
- 建議使用ClinicalKey英文介面

The screenshot displays the ClinicalKey interface. On the left is an 'OUTLINE' sidebar for 'Crohn's Disease' with a list of topics including Etiology, Prevalence and Epidemiology, Clinical Presentation, Anatomy, Pathology, and Imaging. The main content area shows a 'BOOK CHAPTER' titled 'Benign Neoplasms and Wall Thickening of the Small Bowel' by Stephen Thomas et al. The chapter text discusses normal intestinal wall thickness and the hallmarks of benign wall thickening. A 'Reading assistant' overlay is positioned on the right side of the page, containing the title 'Reading assistant', a 'Learn more' link, and a section titled 'Actions you could take:' with buttons for 'Summarize this book chapter' and 'Ask about this chapter'. Below these buttons, the assistant provides a summary: 'This chapter covers benign neoplasms and wall thickening of the small bowel, focusing on four main categories: Crohn's Disease'.

使用Reading Assistance協助評讀

△ 收到回答後記得：回到原文對應段落確認內容是否正確，這一步不能省略

✓ 了解研究對象 · Study population

- 我的個案是_____，我想知道這篇文章對我有沒有參考價值。
- My patient have ACL disease and is adult. I want to know if this article is relevant to my case.

✓ 了解研究設計 · Study design

- 這篇是什麼類型的研究？它在證據等級上屬於幾級？為什麼？
- What type of study is this? What level of evidence does it represent, and why?

✓ 判斷效果大小 · Clinical significance

- 這個結果對臨床來說影響大不大？有沒有說明多少人受益？
- Is this result clinically meaningful? Does the article mention how many patients would benefit?

✓ 確認能否應用 · Applying the findings

- 這篇文章的作者自己說這個研究有哪些不足？哪一點對我影響最大？
- What limitations did the authors acknowledge? Which one is most relevant to my clinical situation?

CK個人帳號註冊機制

使用個人信箱 (Gmail, yahoo等)

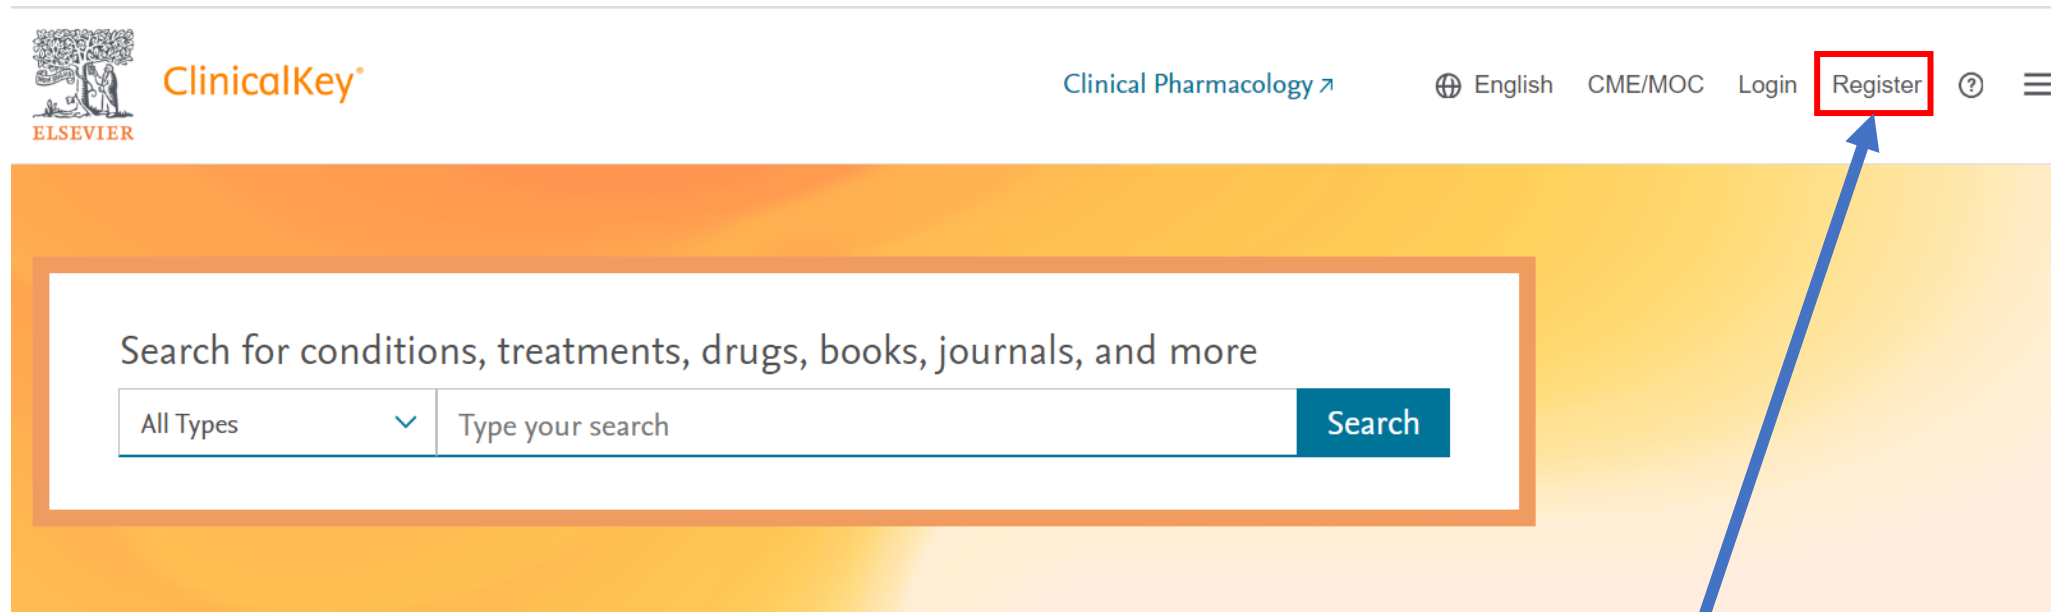

- 擁有CK基本個人功能(儲存內容、製作圖片簡報檔)
- 下載電子書PDF檔
- 未來如需申請開通帳號” 院外使用” 權限，
需聯絡**圖書館或Elsevier廠商**

使用醫院Domain 信箱

- 擁有CK基本個人功能(儲存內容、製作圖片簡報檔)
- 下載電子書PDF檔
- 可**自行**於ClinicalKey網頁申請開通權限

優先推薦使用醫院Domain Email註冊個人帳號，
如果真的有碰到無法收取驗證信件或註冊不成功等情況，
再使用個人信箱註冊

個人帳號申請流程

Diagnose and treat your patients with confidence

Clinical Overviews

Comprehensive clinical topic summaries

Drug Monographs

Drug and dosing information to guide treatment

Guidelines

Latest clinical guidelines from leading organizations

Patient Education

Educate and empower your patients

Step1.

第一次註冊請使用院內電腦開啟ClinicalKey資料庫網頁，於平台上點選「Register」註冊個人帳號

Clinical Comparison

Compare drug indications, contraindications and reactions

Adverse Reaction

View medication-specific adverse reactions

Register

Registration is quick and free. It allows you to personalize the [Elsevier products](#) to which you have access.

* = Required. [Privacy policy](#).

***標示為必填欄位**

Your details

First name *

Family name *

Email and password

Your e-mail address will be your username for these [Elsevier products](#).

Email address *

Password *

[Additional profile details](#)

密碼需要包含至少1個符號和1個英文大寫

☐ I wish to receive information from Elsevier B.V. and its affiliates concerning their products and services

☒ I have read and understood the [Registered User Agreement](#) and agree to be bound by all of its terms. *

Register >

請填寫欲註冊的Email

Step2.

填寫欄位後，請勾選**Agreement**同意選項，最後再點選**Register**，即完成帳號註冊。

設定“Remote Access”使用權限

The screenshot shows the ClinicalKey website interface. At the top left is the Elsevier logo and the ClinicalKey brand name. To the right, there are links for "Clinical Pharmacology" and the user's name "Vivian Chen". A large orange-bordered search bar is prominently displayed in the center, containing the text "Search for conditions, treatments, drugs, books, journals, and more". Below this text is a dropdown menu set to "All Types", a text input field labeled "Type your search", and a blue "Search" button. Further down, there are links for "Search History" and "Saved Searches". On the right side of the page, a dark grey user menu is open, showing options like "Profile", "Settings", "CME/MOC", "Change Language", "Saved Content", "Presentations", "Change Organization", "Remote Access" (highlighted with a red box), and "Log Out". A blue arrow points from a text box to the "Remote Access" option. Below the search bar, there are several content tiles for "Clinical Overviews", "Drug Monographs", "Guidelines", and "Patient Education".

Step3.
完成帳號註冊並登入後，請點選首頁畫面
右上方的三條橫線 打開個人工具列，
並選擇「Remote Access」

設定“Remote Access”使用權限

Adrenocortical Carcinoma and Severe Cushing Syndrome

BOOK CHAPTER

Adrenocortical Carcinoma and Severe Cushing Syndrome

William Young

Adrenal Disorders, Case 28, 103-105

Adrenocortical carcinoma (ACC) presents with overt symptoms of hormone excess (usually androgen, cortisol, or combined hypersecretion) in 30%–40% of cases.¹ Notably, even patients with incidentally discovered ACC or those presenting with symptoms of mass effect may have undiagnosed adrenal hormone excess. Uncontrolled or unrecognized overt Cushing syndrome (CS) carries additional morbidity and is a negative prognostic factor in patients with ACC. These patients are at high risk for deep venous thrombosis and pulmonary embolism, as well as infections. Surgical resection is the best therapy for ACC-related CS. However, when surgery is not possible, aggressive medical therapy for hypercortisolism should be initiated. Here, we present a case of metastatic ACC with severe CS of rapid onset.

CLINICAL OVERVIEW

Dengue Virus Infection

Elsevier Point of Care (see details)

Updated April 6, 2022. Copyright Elsevier BV. All rights reserved.

Clinical Presentation

History

- Typical incubation period is 5 to 7 days after mosquito bite; ² consider in traveler who presents with fever up to 2 weeks after return ⁴
- History of prior dengue virus infection is common in endemic areas; this is significant because secondary infection with a different serotype results in more severe disease
- Presentation varies, ranging from asymptomatic or subclinical (majority of cases) to mild febrile illness, shock, and/or hemorrhage ⁷
- Febrile phase: begins with abrupt onset of fever, which persists up to 7 days ³

Rash in dengue virus infection.

ClinicalKey

篩選資料類型為「Image」，

搭配Presentation Maker製作簡報

※特別提醒：使用圖片匯出功能，需先登入ClinicalKey個人帳號，註冊方式請參考簡報第20頁

簡報製作步驟(1/2)

1. 找到欲下載的圖片，點擊圖片看大圖
2. 畫面移至圖片左下角，找到這個圖式  (Add to Presentation)
3. 於跳出視窗建立(Create New)儲存圖片的資料夾
4. 完成後點選「Add and view Presentation」，畫面即會跳選至

Presentation Maker

簡報製作步驟(2/2)

1. 進入Presentation Maker後，可看到儲存的圖片，此資料夾可持續增加其他圖片，或點選右上方的「Export」匯出簡報檔，即完成。

The screenshot displays the ClinicalKey Presentation Maker interface. At the top, the ClinicalKey logo is visible on the left, and a search bar contains the text 'copd' with a 'Search' button. Below the search bar, there are links for 'Browse' and 'Tools'. The main content area is titled 'Presentation Maker' and is divided into three sections:

- My Presentations:** A list of presentations with columns for a date and a title. The first row is highlighted in dark grey.

Date	Title
08/10	artificial airway
07/18	
07/11 test	
07/04	
05/31	
05/16	
- Preview:** A central area showing a preview of the presentation slide, titled '08/10' with a 'Change' link. Below the preview is a button that says '+ Add images from Saved Content'.
- Export:** A button labeled 'Export' with a download icon, which is highlighted with a red rectangular box.

Summary

PATIENT EDUCATION

Total Knee Replacement, Care After

Elsevier Patient Education © 2023 Elsevier Inc..

Last revised: June 2, 2023.

This sheet gives you information about how to care for yourself after your procedure. Your health care provider may also give you more specific instructions. If you have problems or questions, contact your health care provider.

What can I expect after the procedure?

After the procedure, it is common to have:

Redness, pain, and swelling at the incision area.

Stiffness.

Discomfort.

A small amount of blood or clear fluid coming from your incision.

Follow these instructions at home:

Medicines

Take over-the-counter and prescription medicines only as told by your health care provider.

全膝關節置換術術後護理

Total Knee Replacement, Care After

本資料向您提供了進行醫療程序後如何自我護理的一些資訊。您的保健服務提供者也可以為您提供更具體的說明。如有任何問題或疑問，請諮詢您的保健服務提供者。

進行程序後會發生什麼情況？

進行程序後普遍會出現：

- 切口部位發紅、疼痛與腫脹。
- 僵硬。
- 不適。
- 您的切口部位有少量血液或透明液體滲出。

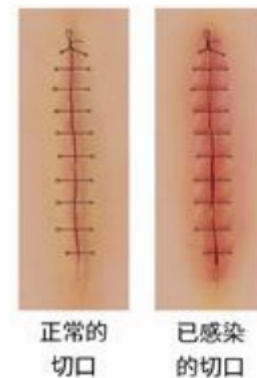

在家遵守這些說明：

藥物

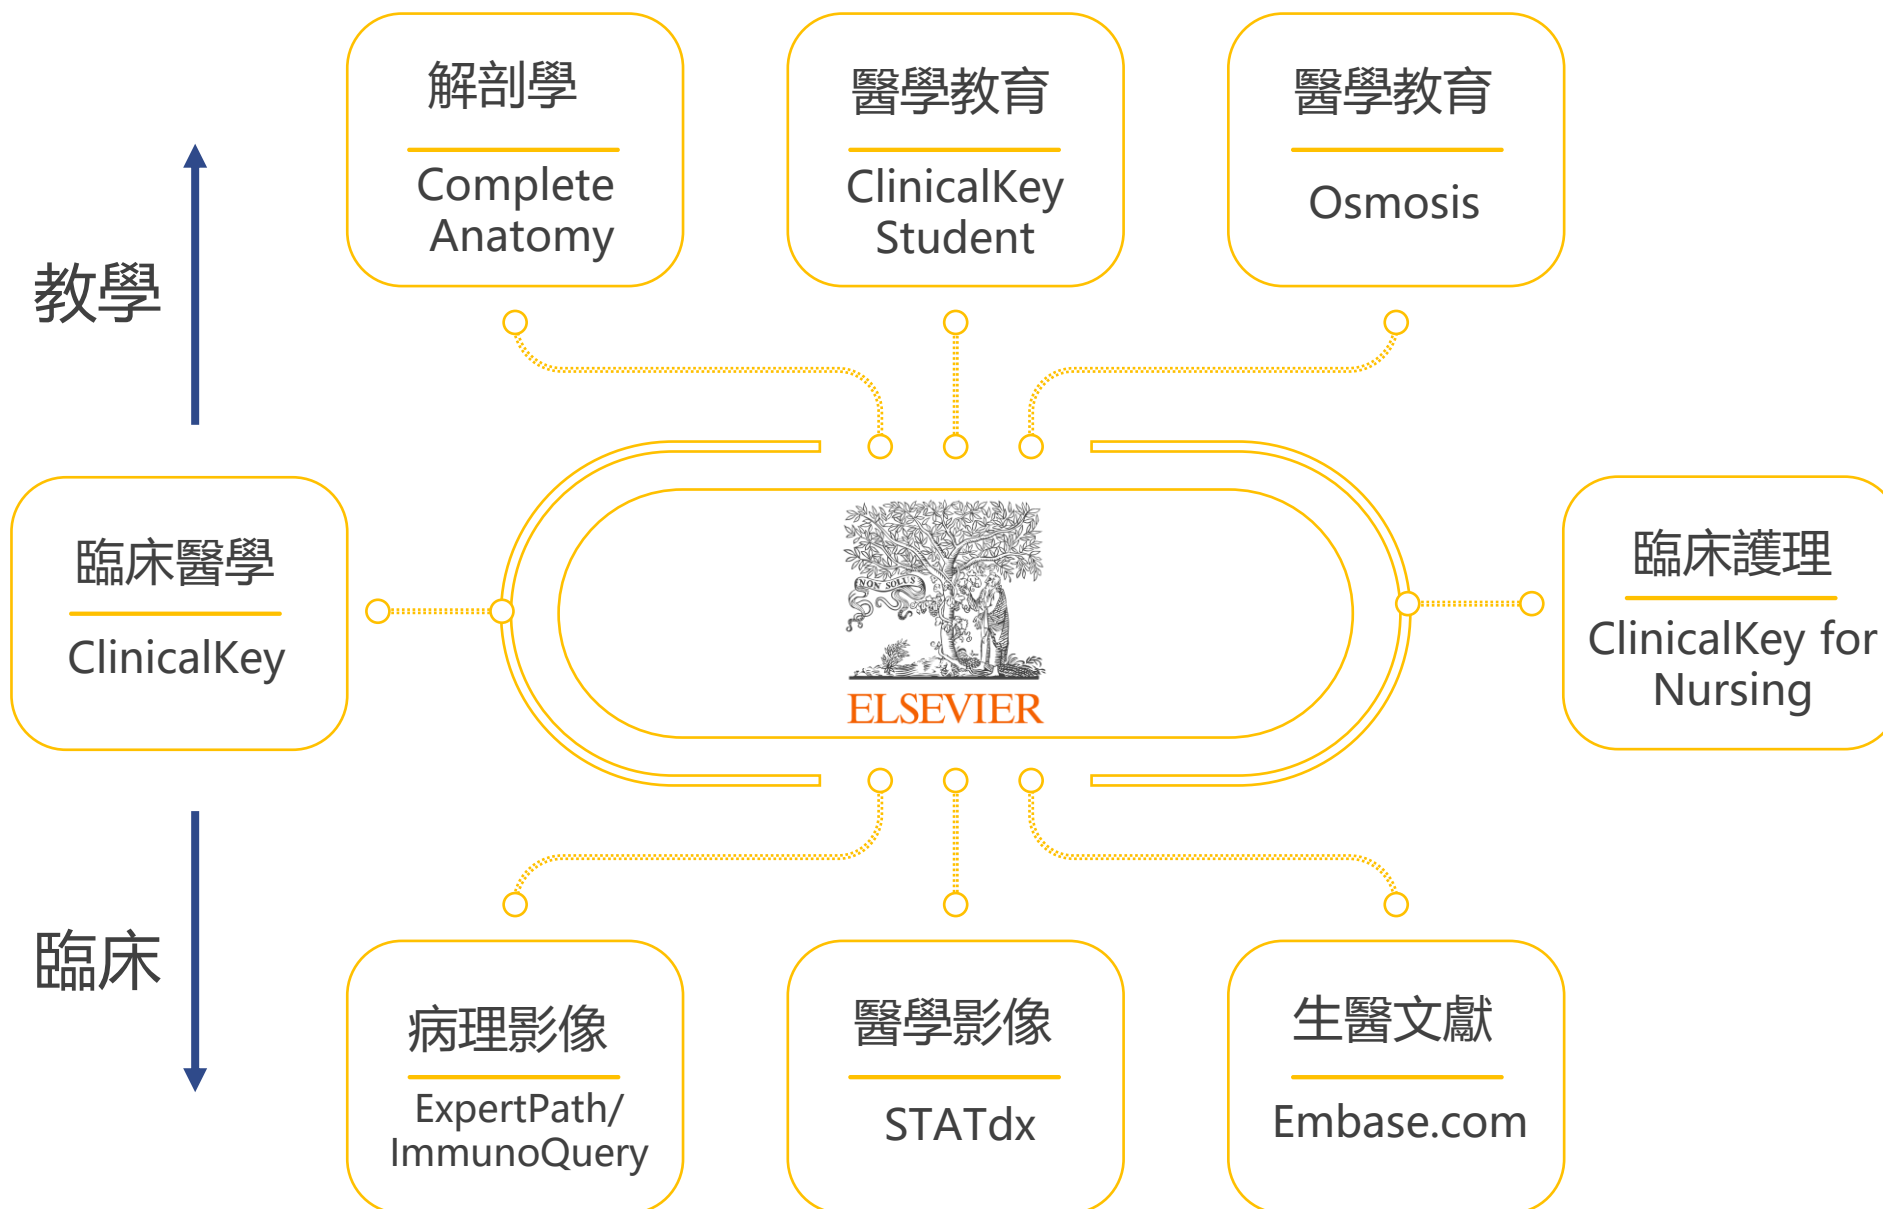

- 僅按照保健服務提供者的指導使
- 如果給您開具了血液稀釋劑（抗
- 詢問您的保健服務提供者開給您
 - 要求您避免駕駛或使用機械

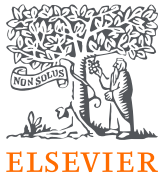

切口護理

- 請遵守您的保健服務提供者有關如何護理切口的指導。確保您：
 - 更換繃帶（敷料）前後，用肥皂和水洗手至少20秒。如果無法使用肥皂和水，請使用消毒洗手液。
 - 遵照您的保健服務提供者的指示更換敷料。
 - 將縫線（縫合線）、吻合器、皮膠或黏合帶留在原位。這些皮膚閉合材料可能需要留在原位2週或更久。如果黏合帶邊緣開始變鬆和捲起，您可以修剪變鬆的邊緣。**請勿**完全拆除黏合帶，除非您的保健服務提供者指示您那樣做。
- **請勿**洗浴、游泳或泡熱水澡，直至您的保健服務提供者核准。
- 每天檢查切口部位是否有感染跡象。檢查是否：
 - 更加發紅、腫脹或疼痛。
 - 出現更多液體或血液。
 - 發熱。
 - 出現膿液或異味。
